**RESTRICTION**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-24, drawn to a cover apparatus, classified in class 379, subclass 433.01.
  - II. Claims 25-33, drawn to method of making (molding), classified in class 264, subclass 511.
2. Inventions Group I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the process or method of making (molding) as claimed can be used to make other and materially different product, such as a computer cover.
3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. A telephone call was made to James N. Dresser on 06-16-03 to request an oral election to the above restriction requirement, Mr. Dresser informs the examiner that the inventor in E.P. has to be notified before an election can be made. Therefore, Mr. Dresser and the examiner agree to have a written restriction.
